

Important Information about Your Online Directory

This online directory was developed to help members easily find participating physicians, hospitals, and other health care providers.

While we try to provide you with accurate data, the information contained in this directory may change as participating providers join or leave the network, move, or retire. This online directory does not constitute a recommendation of any of the listed providers. Prior to receiving services, you should always verify that the provider you choose is still participating and accepting new patients. In addition, some benefit plans require that you obtain a referral from your primary care physician before receiving services from another physician or specialist. In order to receive benefits or to receive the highest level of benefits - check your schedule of benefits, your group administrative contract or call the Customer Service number on the back of your ID card to verify your benefits.

If you receive services from a network hospital, the hospital may arrange with physicians and other providers to assist in your care. Network hospitals are encouraged to hold those hospital-based providers to the same standards for member billing. However, if a hospital does not require its hospital-based providers to comply with the same standards, we cannot influence the manner or amount that you may be billed by the hospital-based provider.

This directory is for general information. Health benefit plans vary, so please consult your benefit plan document to determine what services and supplies are covered under your particular plan.

Find a Lab Search Results - Prepared Tuesday, November 26, 2013

Provider Search Criteria:

Role/Specialty: Lab/Pathology/Radiology, Laboratories
Location: 43420, 50 miles

Plan Type: PPO

Warning

This provider offers services throughout the state. Please click on their website or call the toll-free number for locations.

While we make efforts to ensure that our lists of doctors are up to date and accurate, doctors do leave our networks from time to time, and these listings do change. There may be higher fees associated with visiting a doctor who is not in our network or for obtaining a service that is not covered by your plan. You may be responsible for those costs. To avoid higher fees we recommend that you confirm your doctor is in network and that the desired service is covered when scheduling your appointment.
