County Administrator discussion: CA noted to the Commissioners that the matter of the county courthouse and the security measures has again become a hot topic in need of discussion. There has been an uptick in the fear factor with many staff as there have been several persons in recent times that are the object of the criminal justice system that are quite unnerving in their approach to the county staff. CA requested the Commissioners to meet with the former Security Committee that was established several years ago. Due to time constraints at session today Commissioners put this off for discussion at next session when more details can be shared and more thought be given to the matter.

Also it was noted that the Sheriff has requested some equipment that is old and needs to be replaced. Parts cannot be obtained for this old equipment. The request is for portable alcohol testers and radar items. At last session it was requested that a look for grants or other avenues for obtaining the equipment be made. That has been accomplished and there is nothing to be found. CA suggested the use of Permanent Improvement Funds to fill this request. The request is for up to $21K. This topic is tabled for the gathering of additional information.

***

County Auditor, Bill Farrell, met with the Commissioners to discuss the matter of lodging tax in the county. An issue has arisen with the Lady of the Pines and the fact that they have not been collecting the bed tax. This entity has never charged the tax to their customers. It is the opinion of the Auditor the charge should be applied. After extensive discussion it was decided that there is no course of action that the Commissioners can pursue. CA will look at the current rules, which are quite old, to see what can be modified, if anything.

***

General Discussion: participated in the Northwest Hospital Coalition Alternate Care Facility full scale exercise, good reviews from all agencies; current training in Pediatric Advance Life Support renewal all medics as well as training in Children and Adult protective services, station upgrades and future EMS involvement, changing job title from EMS Director to EMS Chief which would allow EMS to fall into the Incident Command System as well as National Incident Management Systems (NIMS) that we have to comply with for grants and also will clear confusion in large scenes as well as table top exercises – Commissioners concur with the title change

Jackson presented standard report for financial status and squad runs.

Discussion was had on the recent requests from various officials to address the perceived needs for EMS services in several locations in the county. These matters will be postponed until 10:30a today for additional discussion.
